With the alignment of the 21st century in stimulating the process of developing education creatively integrating technology in education to contribute to the qualitative addition of students, teachers and the educational system in order to build the knowledge economy, Jana Reading is the first of its kind based on the criteria of the Arab 21 project and approved by them. On an electronic platform

www.ijana.com

It is also available as apps in Apple Store and Google Play.

Our Vision

Jana Reading Program is the direction for our children globally to learn Arabic.

Our message

1. Children to love their language and to be a positive interactive reader.
2. Children to learn in a modern pedagogy that addresses the needs of the 21st century and stimulates the use of Arabic as a language of life.
3. To facilitate best practices to students & teacher

Our targeted audience

1. Beginner readers up to fifth or sixth grades.
2. Our expatriate children who do not have the tools and materials to support reading skills at the level of spelling or reading comprehension.
3. Non-Arabic speakers at the early levels of education in international schools.
4. Students with special needs.

Characteristics of Jana Reading

1. Flexible progression in reading, understanding and comprehension skills enhances a sense of achievement and success.
2. Observes human values such as tolerance, justice, brotherhood, and respects the morals and local cultures of the child.
3. Includes genres and literary styles supported by visual support and graphics, consistent with the child's environment.
4. Fifteen levels of Arab standards contain 21 taking into account individual differences in learning.
